

Egg Box Flowers

Try yellow or orange paint to make daffodils - perfect for spring!

You will need:

- Egg box
- Lollypop sticks
- paint
- buttons
- glue
- scissors

1. Cut out the egg box. 'cups' to create the flowers. You can cut rounded petals, or spiky petals, or play around with the shapes. What sorts of flowers can you make?

2. Paint your flowers. We used the other half of the egg box as our palette.

3. Paint your lollypop sticks green. These are your stems. We added some green glitter to make them sparkle!

5. Once your flowers are dry, glue your buttons into the centre of your flowers. These are your stamen. Then glue your lollypop sticks to the back of your flowers to add the stems.

Voila! Flowers all year round!

Please do share your work with us on our Facebook page - we would love to see what you've been up to!
